PRIMARY LOGO

The Lover Lover primary logo is the main expression of the brand and should be used across all primary communications. It should be prioritised wherever possible to maintain consistency and recognition.

BRAND MARK

The Lover Lover brand mark is a distilled expression of the identity, designed for subtle yet recognisable brand moments. It can be used across layouts where a full logo is not required, such as overlays, social content, and design accents.

SECONDARY LOGO

The Lover Lover secondary logo is designed for more compact and flexible applications. It is best suited for landscape formats, tighter spaces, and functional uses such as letterheads, documents, and digital layouts.

BRAND ICON

The star icon is a distinctive element of the Lover Lover identity, derived from the logo. It can be used as a supporting graphic across social media, digital platforms, and brand touchpoints to reinforce recognition. The icon should never overpower the logo, but instead complement it as a subtle, consistent detail.

LOGO DON'T

Don't stretch.

Don't squish.

Don't make it hard to read.

Don't blur or add special effects

Don't change colour.

Don't make it too small.

CLEAR SPACE

To ensure the logo remains clear and impactful, adequate space must always surround it. The minimum clear space is defined by the size of the star element within the logo. This measurement should be applied on all sides, free from any text, imagery, or other graphic elements. Using this proportional unit ensures the clear space scales consistently with the logo at any size.

To maintain clarity and legibility, the logo must never be reproduced below the minimum size. At sizes smaller than this, the logo may lose detail and impact.
